EPL has been a pioneer in providing quality Solar Energy Solutions which matter to us in everyday life. While thanking for your support all along, we are pleased to inform that our efforts have also been recognized inspiring us to do more for Solar Energy and environment.

Leading Players

Sanjiv Arora,
managing director

EPL INDIA LIMITED

EPL India Ltd (formerly The Energy Pool) was incorporated in 1995 and restructured in 2004. EPL was essentially formed with the objective to take the benefits of renewable energy to the common man and this remains its guiding principal. EPL essentially caters to

the branded solar power water heating systems, pool heating and photovoltaics markets.

“We at EPL believe in the supply of quality products, proper installation and strong after sales service. EPL’s

team has contributed significantly towards fighting the negative image often associated with solar products, instead creating goodwill for the category. We at EPL encourage a critical interpersonal relationship both within the organisation and with our customers,” says Sanjiv Arora, managing director.

The company is represented in Delhi, Chandigarh, Ludhiana, Jaipur, Lucknow and Mumbai.
